

SEWF & Community Hubs Connect

As part of our flagship forum (SEWF 2021), we are exploring an exciting opportunity to connect global conversations with local action through the power of **Community Hubs** around the world. The Community Hub model enables groups to self-organise and hold their own events during SEWF 2021, while viewing live and recorded content and also connecting locally in-person for networking and local sessions.

Thank you very much for your interest in hosting a Community Hub. The following Expression of Interest form is to help you to develop your Community Hub concept and give SEWF more information on your plans.

Should you have any issues please feel free to book in a time to chat with our Community Hubs Lead Bella [here](#)
